

QUALITY AND HEALTH AND SECURITY AT WORK POLICY

The main activities of **iZanda Portable Machine Tools, S.L.** are on-site machining and grinding tasks, portable machine tools for rental, design and manufacture of portable machine tools and specialized equipment to use in on-site machining services.

iZanda PMT is aware that its future is determined by the satisfaction of its customers, by the quality of its products and services in a specialized attention to each work, and by the health and safety of people who works in the company. For this reason, management has established and implemented an Integrated Management System based on the requirements of UNE-EN ISO 9001: 2015 and UNE-EN ISO 45001:2018 standards.

This policy is based in the following commitments:

- To know the needs of our customers and ensure their full satisfaction based on individualized attention, providing them an adequate service and getting ahead of their expectations.
- To be able to assure to our customers the supply of solvent, safe and reliable products, conforming to their requirements, and with a relation quality / price and delivery deadlines that fulfill their needs and expectations.
- To fulfill with all the requirements imposed by our interested parts, as well as all those of legal type and others that the organization subscribes in the field of the quality and the safety and health at work that we were required.
- To commit to improve continuously the quality of our products and to reduce and control occupational hazards and prevent personal injury of workers and subcontractors.
- To adapt our processes to the characteristics and needs of each customer. One of our goals is the improvement of these processes, even designing specific products if they are requested by the customer.
- To prevent damage and deterioration of workers' health by trying to minimize the accidents and damages of our workers and subcontractors, and implementing measures aimed at improving our performance and work operations in these matters. In order to achieve them, Management commits itself to guarantee the training and information to the workers.
- To achieve a high competitiveness in our market based on the confidence and the fulfillment of the requirements of our customers.
- Establish, implement and maintain processes for the participation and consultation of workers, in decisions related to Quality and Safety and Health at Work.

Management is committed to put this quality and safety and health at work policy available to all interested parts that require it.
